

Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically Engineered (GE) food. I request that the agency's current policies be changed, and all the points in docket #00P-1211\CP1

☐ All GE foods should be labeled so I am informed and have a choice.

☐ GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment.

(Additional Personal Comments:)

I am tired of corporate profits being put ahead of public health - I appreciate all you can do to stop it. Sincerely

Name Hannah Doners
